Double Draw/ Double Up Poker

All the fun and excitement of Double Up Poker with the double thrill of bonus draw!

OMEGA PRODUCTS

Double Draw/ Double Up

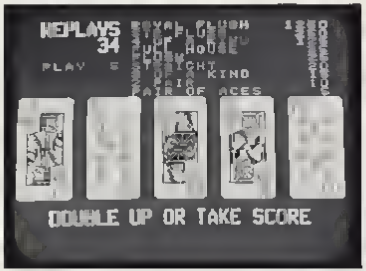
A Video Amusement Game

The Game

Double Draw/Double Up offers twice the excitement of other video poker games with the extra added attraction of bonus draw! Player can discard up to five cards per hand. A bonus draw may be given to improve the hand. Then comes the option of playing "Double Up" where the player can double his skill points or lose them all.

Strategy A pair of Jacks or better is a winning hand in Double Draw/Double Up. If a player has less than that, he is offered a bonus draw to improve his hand. He will get to replace any one card with a second draw. Now if he gets a winning hand he has two more choices. He may keep the win by pressing the "Take" button. This transfers his skill points to replay numbers. The player may also decide to try the Double Up feature. Instructions appear on the screen when the player presses the "Double" button.

The player is asked to press either the "Big" or "Small" button. If he presses "Big" and the next card that appears is above eight, he wins. If ha presses "Small" and the next card is smaller than eight, he wins. Winning at Double Up doubles the player's skill points.



The Display

- Bright, lifelike card graphics
- 14" Color Monitor
